Campaign to promote office automation	264
Chips for China	96
Compatible digital communications within Europe	209
Computers for every student	153
Data protection Registrar's report	266
Database link in French and English	154
Defence study contract	153
Document preparation	264
Documentation system for software engineers	210
Electronic mail user survey	318
Esprit consortium	319
Faster, cheaper documentation	95
Fibre optic link between China and Hong Kong	208
Fibre optics research	95
Grant for money market system	94
Independent IT consultants	265
Integrated information networks for process industries	95
Mercury licence granted	37
Networking communications development project	96
New legislation sought to curb losses caused by software piracy	35
Newspaper printing by satellite	153
NHS communications needs reviewed	320
Office automation	320
Office equipment industry network project	208

Photo videotex system	208
Project Hermes discontinued	95
Research and education programme	209
Satellite service for offshore industry	94
Satellite services for South-West Pacific	264
Secure computer communications	265
Speech control for complex systems	209
Speech recognition	35
Statewide information network	96
Study to link distributed database	154
System security guidance	264
Technical standards within health service	265
Telecommunications services between USA and UK	266
Trade association for automatic identification	37
Training pack for Data Protection Act	319
Transatlantic cable plans approved	208
US software protection service	94
Videotex the favoured method of obtaining quotations	36
Visual database	94
Wasted IT opportunities in business	36
X.25 development for Unix	210

LITERATURE REVIEW	45, 104, 160, 216, 271, 326
--------------------------	--------------------------------

NETWORKS

An ISDN for the UK Wiley, A and Hutchison, D	235
Code sequence allocation in a direct sequence spread spectrum local area network Smythe, C and Spracklen, C T	283
Communications and the personal computer Rich, B	64
Congestion control technique for an integrated services local area network Majithia, J C, Li, S-Q and Parker, T	180
Development of the ISDN in the UK Chidley, J	299
LANs in an ISDN: consistency with the OSI Reference Model De Prycker, M	74
Managing local area networks Coffield, D and Hutchison, D	240

PERFORMANCE

Performance analysis of a retransmission control algorithm for local area networks Apostolopoulos, T K, Sykas, E D and Protonotarios, E N	128
---	-----

PRODUCT DESCRIPTION

Multilink — an open network for personal computers Grant, J	27
---	----

PRODUCT REVIEW

Access to X.25 LANs	325
Accounting software for LAN system	278
Alternative to local area network	158
Asynch interface adaptor	275
Business communications software	50
Cellular radio modem	277
Command and control system	212
Communications adaptor	98
Communications between host computers and workstations	279
Communications package for IBM PC	102
Credit and charge card electronic transfer service	275
Credit card organizations install electronic payment system	276

Data encryption facility for plug-in communications system	324
Data multiplexer	277
Data over voice equipment	213
Data security and viewdata conversion	159
Data-voice multiplexer uses 'ping-pong'	322
Dealer workstation	51
Digital data service for USA	215
Direct or modem link communications system for micros	50
Distributed communications processor	324
Education information network	52
Electronic mail for ships	49
Electronic mail service for life assurance industry	101
Electronic theatre booking	98
Ethernet broadband cable system	276
Ethernet communications over broadband network	214
Ethernet controller	100
Ethernet gateway	212
Ethernet prototyping equipment	103
Fan-out unit for IEEE 802.3 networks	101
Far East — UK leased line service	215
Fibre-optic cable/IBM cabling system compatibility	99
Fibre-optic link for remote sites	215
Field-by-field viewdata	51
Handheld-PC data transfer	99
Handheld tester for communications networks	213
High-speed line driver	155
ICL connection packages	101
Infrared data transmitter	98
Japanese news comes to Europe	53
Kilostream multiplexing	214
LAN for bar code data-capture systems	215
LAN for first-time buyer	49
LAN integration	324
LAN management server provides record of session-level activity	157
Local and remote networking packages	158
Local-call access to PSS service	212
London — New York business link	156
Low loss exchange lines introduced	322
Microcomputer for business and planners	275
MS-DOS micronetwork	102
Multifunction communication controller	278
Multifunctional banking workstation	159
Multiplexer system	99
Network management	323
Network processors and operating system software launched	321
Network telex manager	156
Network workstation	155
Networking devices for modular workstations	323
Networking software on a card	101
New format for computer yearbook	156
OA programs	102
Office — telex interconnections	279
Online word processor	277
Optional features for datapack network	278
Passenger information service	53
Personal network	103
Portable videotex terminal	52
Prestel-compatible viewdata system	325
Puma mailbox	53
Real-time retail banking system	214
Relational DBMS for networked systems	277
Remote data collection	103
Remote device system	100
Security system for computer lines	213
Single telephone cable for voice and data signals	276
Small office network	275
SNA protocol and emulation programs	54
Software for retail funds transfer	52
Switching line for small networks	54
Telemetry via PSTN	155
Telex despatch system	322
Telex despatcher	49
Telex interface	50
Time division Kilostream multiplexer	321

UK — FRG videoconferencing link established	324
UK — USA switched data link	325
Videotex printer supports Prestel graphics	98
Viewdata networking facility	321
Voice and data terminal	54
Voice input and response system	159
Voice response system	325
X.21 interceptor	158
